

# for Families

CONTRIBUTE TO YOUR CHILD'S LEARNING AS IT HAPPENS

## GET THE APP!

Each Educa site is private.  
Access online or by the free app  
- Educa Touch iOS or Android.

Get push notifications on the app and read individual and group stories about your child.

And keep up with service news on the "Messages" feed.

## ONLINE CHILD PROFILE

Accept the Educa invite online, and then invite family and others to your child's feed.

Check out stories, plans & more in your child's profile online.  
Print stories to read to your child or download as a keepsake.

## GET INVOLVED!

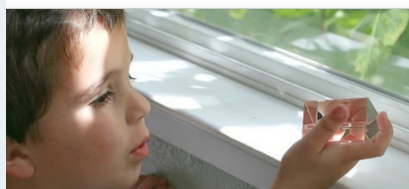

There is real educational value in the adults around a child working together. This can only happen if a child's learning is visible to teachers and families, 24/7. Then everyone can contribute meaningfully.

This is the role of **Learning Stories** on Educa - to help create that visibility.

Learning stories are more than just pictures and notes about the fun your child is having. They also explain the learning behind the play, and what's next for your child.

This is where you come in!

The teachers need your reactions and feedback to the stories, comments on what you are seeing at home, your ideas,. You can even post your own stories. They want you involved, a partner in the learning!

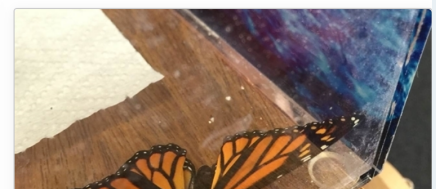

### Over the Rainbow!

By Admin Educa | 06/22/2020

Asa, today I saw you test your working theory about light and color. You were so amazed that a rainbow a...
