Create Parent Stories

Parent stories are a way for parents and family members to contribute to their child's online portfolio.

Documenting your child's learning at home keeps educators informed of the child's development outside of the classroom.

Provide Feedback To Educators

On stories and plans you have the ability to comment.

Whether it's a simple thank you for their work, or ideas to further your child's learning, this is an opportunity to provide valuable feedback to your child's educators.

Eloise and the Butterfly
01/03/2018 by Admin Educa [Unthank](#) [Print](#)

Today Eloise displayed great curiosity when she spotted a butterfly outside. Eloise I am really proud of how you stood patiently and watched what the butterfly was doing. You then followed the butterfly around the playground, keeping a distance, showing caution.

Calmly you held out your hand. After waiting patiently for a couple of minutes, the butterfly landed on your hand, which you said tickled your fingers. Today you have shown that you are a keen explorer!

This is fantastic! We will keep an eye out for butterflies at home 😊

Thomas Drake 20/04/2018
Hey Alex, Eloise came bursting in today to tell us that she had seen 4 butterflies this weekend! We will also keep an eye out here to see if we can add to the tally!

Field trip Friday

17/09/2017 by Admin Educa Print

Dear Parents,

On Friday the 22nd of September we will be taking all children 2 years and up for a field trip to the high school horticulture club's nursery. Garry Newman, the club's director, will be giving a workshop lesson on how to plant a seed. In this workshop, each child will be given an empty yoghurt container to plant a Snow Pea seed, and we will take all of the containers back to the Centre to watch them grow!

If your child is unable to attend this workshop please let us know.

Parents are welcome along too, it will be great lesson on caring for seedlings! We should have some delicious peas to harvest by March.

- Sam

Eloise Meyer

Subject

A plan aimed at improving Eloise's social skills and encourage interaction with her peers.

Description

A plan aimed at encouraging Eloise's social skills. By the end of term we want her to be a confident individual.

Teacher aspirations

We want to see Eloise taking an active interest in socialising with her peers. Our goal is to end the Term with Eloise approaching her peers without being encouraged or prompted by staff. We are going to give Eloise a buddy in the first half of the term to limit dependency on staff and encourage her to form bonds with her peers.

Guardian aspirations

At home Eloise is an ongoing child and has no issue interacting with siblings and other family members. We are really behind the staff encouraging Eloise to socialise with peers outside of her home. We are looking to enrol Eloise in some extra-curriculum activities to encourage her social confidence further.

Child's Voice

Eloise says:

- She wants to make friends.
- She would like to have a party where she can invite friends.

Referenced Curriculum

Te Whāriki (Early Childhood)

Mana Reo / Communication:

- Children experience an environment where they develop verbal communication skills for a range of purposes.
- Children experience an environment where they develop non-verbal communication skills for a range of purposes.

Mana Tangata / Contribution:

- Children experience an environment where they are encouraged to learn with and alongside others.
