

FACT SHEET

Documentation & parent engagement software

Educa is a private online platform for early educators to document and share learning.

Teachers document learning and share observations, photos and videos with parents. Online assessments, lesson plans, daily reports, teacher portfolios and other documents.

Educa is assessment and curriculum agnostic. Download or use our form builders to create any checklist or learning goal set in Educa, including your own.

Engage parents by creating a community around each child, draw families into the learning journey.

Swap and share lesson plans and other documents with colleagues – raise standards by making everything visible.

About

Founded in New Zealand in 2010.

Used by 150,000 educators & parents, with extended family in 85 countries.

Benefits

Make more informed decisions with better family feedback and collaboration with colleagues.

Save time with online documentation.

Replace emails, photo-sharing apps, Facebook pages, blogs with one system, everything in one place.

Less paper saves money.

Easier compliance because it is at your finger tips when you need it.

Answer the question, what is my child learning, in real time.

Features

- Image-rich observations that parents love
- Assessment and curriculum-goal agnostic
- Robust planning and form templates
- Teacher portfolios to track professional development
- Track center activity – children, parents, teachers
- Daily reports, parent portal for important documents
