

# What is Educa?

Educa is a platform where teachers will share **Learning Stories** about your child's activities and the learning behind the fun.

Your teachers will be able to share their teaching, and their plans for your child in real time as the learning is happening.

They will also ask for your feedback, to help extend the learning - in centre and at home.

Learning Stories are added to your child's **Portfolio**, accessible **only** to teachers and family members you invite to Educa.

## Did You Know?

Educa was founded by Nathan Li so he could feel more connected to his daughter's child care service.

# Get Started

## ACCEPT

our email invitation.

## DOWNLOAD

the Educa Touch app.

## INVITE

extended family.

## PARTICIPATE

in your child's learning.

# Family Guide

# Your Child's Portfolio

## Learning Stories

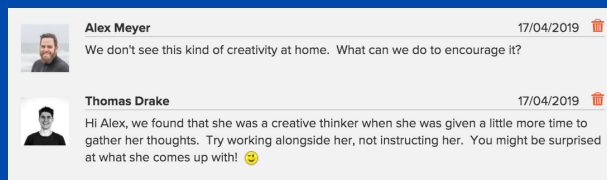

The heart of Educa is your child's portfolio of Learning Stories – individual stories or where your child was part of a group.

Learning Stories have three components:

- The story (the event or activity)
- Teacher reflections (on the learning)
- Links to Frameworks or Plans

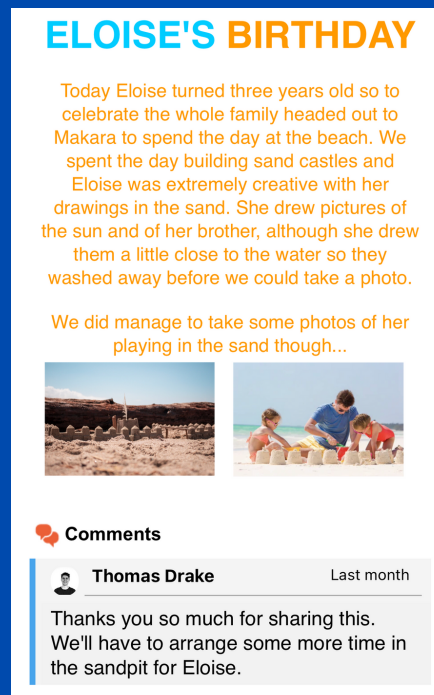

Your feedback is part of the Learning Story process! So please comment on each story.

When your child leaves the centre, you can download the portfolio as a keepsake.

## Family Stories

Use the **Educa Touch app** to **read** stories and messages from your teachers, and to **write** stories for your child's portfolio.

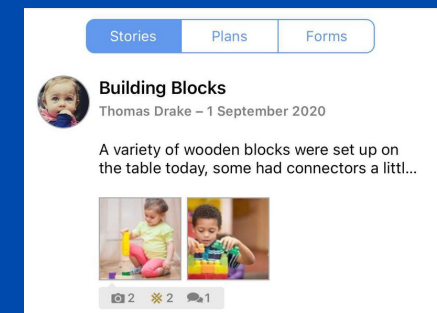

Writing stories of your child's activities outside the centre helps teachers. They can use your insights in their teaching, making you a partner in your child's education.

## Documents

Your child's profile also contains **Plans** and **Forms**. This allows teachers to set long-term goals for your child, collect information or record snapshots of progress.

Your voice is important here. You may be asked to contribute to these documents through family response fields or comments.

**Communication**

Educa has several ways to share information with you. This includes sharing plans, centre-wide updates, policies, resources or event reminders.
