## YOUR CHANCE TO BE INVOLVED

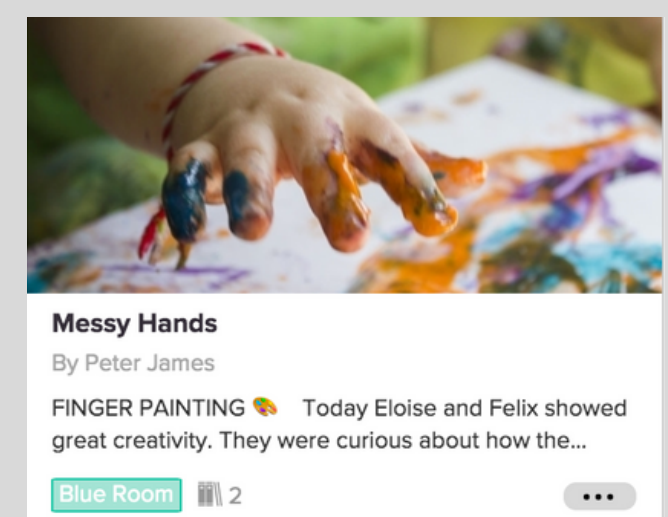

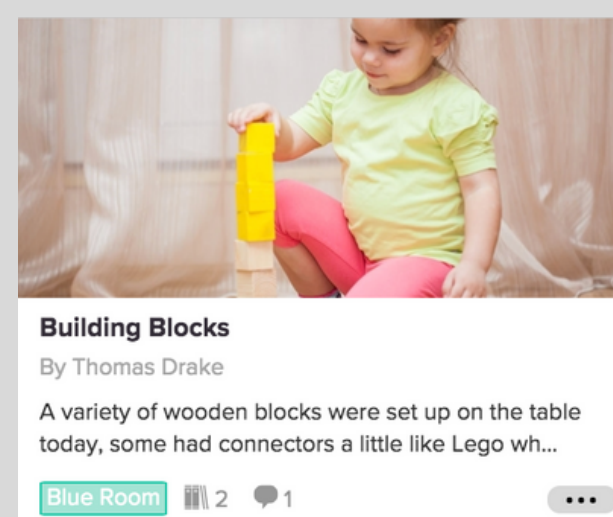

There is real educational value in the adults around a child working together. If learning is visible, everyone can contribute meaningfully.

This is where Educa helps.

Your teachers will use Educa to share Learning Stories, which explain your child's learning as it happens, including next steps for your child.

This is where you come in!

Teachers need your reaction and input - what you are seeing at home, your ideas. You can even post your own stories. Join Educa and be a partner in the learning.
